“ *Your dad just called me out of the blue a few weeks ago and we talked for almost an hour. We made plans to have lunch this month and meet for his birthday. Oh what a kind, good spirit he was. He blessed me with his friendship, his sense of humor and his companionship. We shared life's stories with each other and encouraged each other. I was so lucky to meet him at the senior center when I worked there, and became friends. He showed me unconditional love in our friendship and I will never forget that, and will keep him close in my heart. I am glad that he introduced me to Daniel and Pam. And I will remember fondly his deep affection for his beloved granddaughter. Always, his friend, Colleen Fryza*
